About This Game

Join Bishi in this short but sweet (and funny) platform game as he goes through three worlds to defeat the evil Doctor Evilworth! He's like, really evil. Bishi will soon find himself in possession of a very persistent boomerang, and a friend in the name of Maximillian the Third, from the band Because Because! (Who totally isn't the author of this game..)

- Featuring plenty of checkpoints and infinite lives, this isn't Dark Souls.
- Enjoy the varied levels and Maximillian's lack of helpfulness!
 - Lots of tunes and funny sound effects!
 - An adorable Bishi!
 - Gems to find for an extended ending!
- WASD keys or Arrow keys with Shift and Right CTRL
- Bishi can be controlled with a controller, but conversations must be advanced by pressing the space bar.

bishi and the alien slime invasion

Fun little platformer! Definitely worth the low asking price. Probably around 1-2 hours to beat (depending upon how good you are at platformers). Quite straightforward levels but very charming hand-made graphics and funny voice acting. Plenty of fun, jokey references in there as well. Good checkpointing for the most part - and unlimited lives, thankfully! - but it also gets quite challenging later on.

Some tough boss fights too but they never felt unfair, just required some very precise play. One small gripe is that it only saves progress permanently after beating a boss, so you can't just hop on and play one level. Overall very enjoyable though!. Nice little platformer. easy to master with some tricky situations.

rising lava level...check
